VALIDATION AND ENDORSEMENT OF THE NUTRITION CONTENT OF THE mNUTRITION PROGRAMME IN NIGERIA

It is with great pleasure that I approve and recommend the use of the mobile formatted nutrition messages which have been spearheaded by Grameen Foundation, Global Alliance for Improved Health (GAIN), and Group Special Mobile Association (GSMA) and is available as nutrition fact-sheets and mobile messages based on the respective fact sheets and specific to the topics on pregnancy, infant and young child feeding.

The content as described has undergone a validation process by the Federal Ministry of Health and Nutrition Stakeholders and has been found to be in compliance with the priorities of the National Strategic Plan of Action for Nutrition.

The content is therefore considered fit to be used as Factsheets, SMS messages and Voice Scripts for Nigeria.

THE GSMA mNUTRITION PROGRAMME IN NIGERIA

I write to acknowledge the receipt of your letter dated 18\textsuperscript{th} June, 2015 on the GSMA mNutrition Programme in Nigeria and your request to validate the nutrition content of the programme, which has been developed with technical support from my ministry and in consultation with stakeholders.

In view of the relevance of the programme to protecting good nutrition, it is my pleasure to endorse the nutrition content of the mHealth programme.

It is my hope that these messages will promote adequate nutrition practices in the country.

Please accept the assurances of my highest regards.
